A few words is all that is necessary to make known the history and wonderful curative powers of this astonishing remedial agent, the Highland Bitters, or celebrated Scotch Stomachic, which has proved itself, in every instance, to be the only panacea or true talisman to health to the sick and af-flicted of every nation and of every clime. It was discovered by George Ballangal, M. D., F. R. S. Professor of Military Surgery in the far-famed University of Edinburg, Scotland. When climatic diseases were cutting off in thousands the British and French soldiers in the Crimea, during the Russian War. Sir George Ballangal was appointed by her Majesty, Queen Victoria, as Chief of the Medical Commissioners, to investigate in a scientific man. He, Sir George, discovered by patient research that the Highlanders had been in the habit of using a certain combination of herbs and roots, indigenous to their native hills and glens, which, when combined with oriental aromatics, was found to be the most superlative invigorator and builder up of the human system which the world or suffering human-Hanger, &c , respectfully solicits a share of ity has ever known.
